Robert S. Jones presided and introduced the speakers and at the conclusion of the addresses, Julian Y. Williams, business manager of the Chamber of Commerce, on behalf of the gentlemen present presented Mr. Hard with a handsome leather traveling bag suitably inscribed. On behalf of the Red Cross campaign Rev. Dr. E. V. Regester, pastor of the Methodist Episcopal Church South, said that it was largely through the splendid work done by Mr. Hard in the Alexandria Gazette that the campaign was such a big success resulting in Alexandria going "over the top."

As editor of this paper Mr. Hard will be succeeded by Michael T. Dwyer, who for the past fourteen years has been Alexandria representative of the Washington Star and Washington Herald, and James F. Peyton will become business manager. Mr. Peyton for the past eighteen years has been Alexandria correspondent of the Washington Post. Both of the above named gentlemen will still continue their work for the Washington newspapers.

Whose grace can make our Order strong,
Through love of right and hate of wrong,

Our brethren on the battlefield.
Asleep, beneath Thine Temple dome,
With many a tender dream of home;
Or charging, in the dust and glare,
With bullets hurtling through the air,
We pray Thee in Thy pity shield
Our brethren on the battlefield.
O soon, Thou Blessed Prince of Peace
Bring in the days when war shall cease,
And men and brothers shall unite
To fill the world with love and light,
We pray Thee in Thy pity shield
Our Brethren on the battlefield.

For his heroism he was awarded the distnguished conduct medal, which King George personally conferred upon him in a hospital.

Invalided to this country because of his wounds, McClintock was later honorably discharged from the Canadian army. He then entered the Plattsburg officers' training camp and won a first lieutenant's commission. He was assigned to the overseas forces.

Wounded twice in action, he was sent back to this country and assigned to duty with the depot brigade at Camp Dix.

NEW ARMY EXPLOSIVE.

Enormous Craters Torn in Earth at Camp Dix.

Camp Dix, Wrightstown, N. J., June 29.—Demonstrating the terrific power of a new explosive for the use of the American Army, mines were exploded in the fortification zone here, hurling thousands of tons of earth into the air and making a series of enormous craters. These will be consolidated by the engineers as part of the trench system.

The tests gave army and engineering experts a fine opportunity to study the effects of this style of warfare. There was a surprising lack of noise to the explosive, but it made up for this in power. Trenches within a hundred yards of the craters were torn and filled with their own wreckage by the upheavel, while earth tremors shook houses 10 miles away.

DEPUTY HAASE'S SPEECH

Socialist in Reichstag Says People Must Take Peace in Their Own Hands.

Amsterdam, June 29.—The notable speech delivered in the German reichstag this week by Deputy Huge Haase, the independent Socialist, in which he vigorously attacked the government's foreign policy and alluded to the growing importance of the American military effort, is given considerable space by the semi-official Nord Deutsche Allgemeine Zeitung. Its version of the speech is as follows:

"Dr. Helfferich and Admiral von Capelle," said Deputy Haase, "told us in 1917 that the United States would be unable to take any further part in the war, and that its miltary importance was nil. Today there are 700,000 Americans on French soil and nothing has been heard of any U-boat booty in the shape of American transports. The speeches of Count von Westarp and Herr Stressemann regarding American powerlessness must therefore be taken with the greatest mistrust."

Herr Haase continued, the semi-official version of the speech went on, with a bitter attack on the German military rulers for their method of conducting the war, which was alienating the friendship of the whole world. He declared their methods were making a decent peace impossible, and that the German people must take matters into their own hands.

BRITISH VICTORIOUS.

Advance Lines Three and a Half Miles in Flanders.

London, June 29.—On a front of three and a half miles British troops in Flanders yesterday advanced their lines in local operations to a depths of nearly a mile, taking 300 prisoners and twenty-two machine guns. The hamlets of Lepinette, Verterue and Labocque were captured. The British casualties were slight, Field Marshal Haig announced in his night report. The action took place to the east of the Nieppe Forest.

Australian troops raided Merris, taking forty-three prisoners.

Under "aviation" the statement adds:

"Twenty hostile machines were destroyed and nine driven down out of control yesterday.

"Fourteen of our machines are missing.

"Twenty-one tons of bombs were dropped by our fliers on railroad junctions and other targets behind the enemy lines.

Private advices have been received at a Gulf port to the effect that the British steamship Atlantian has been torpedoed and sunk. There were no casualties, the report says, but no date or place of the disaster are given. The ship was laden with munitions.

The community patriotic celebration which was to have been held July 4 on Shooters Hill will be held from the balcony of the Chamber of Commerce, Fairfax and Cameron streets instead because the erection of the bandstand at Shooters Hill has not yet been completed.

Plans for the celebration were mapped out last night at a meeting of the different committees in charge held in the rooms of the Chamber of Commerce. Various subcommittees were appointed to look after the details of the affair.

Representative Joseph Cannon, former speaker of the House of Representatives, it is expected, will deliver the principal address. A band concert will be given, and other features planned include the reading of the Declaration of Independence and reading of Washington's farewell address.

The hour for the exercises will be fixed upon later. It is the purpose of the committee to arrange the hour so that it will not interfere with the exercises which are to be held at Mt. Vernon.

LIGHTNING WRECKS A MINE.

Explodes Dynamite and Number of Dead Can be Only Guessed.

Virginia, Minn., June 29.—Steam shovels crews last night began digging into the debrics of what was once the Silver open pit iron mine near here in hope of finding the bodies of more than a score of miners, killed yesterday by the pre-mature explosion of nine tons of dynamite.

The M. A. Hanna Company, owners of the property, said yestreday no accurate estimate could be made of the number of dead. Four hundred and fifty men were working in the mine when the explosion occured. Fourteen are known to have been killed, one body has been recovered, many are missing and many severely injured. The majority of the miners employed at the mine were Austrians and Finns.

According to the owners, a bolt of lightning caused the blast. The lightning struck the wires connected with dynamite which had been pleaced by the shot firers, and the explosion of the blasts detonated boxes of the explosive which had not yet been removed a safe distance.

EDITOR OF GAZETTE RESIGNS

With this issue the writer will conclude his labors as editor and manager of the Alexandria Gazette, to take up duties elsewhere.

It is a satisfaction to him to know that during the two years in which he has had charge of the paper its circulation has been increased to more than three times what it was when he assumed the management, and it is hoped that the work that has been put upon it has not been unappreciated by its readers.

During his residence here the writer has enjoyed the acquaintance and friendship of a large number of Alexandrians whom he has learned to esteem most highly and will ever remember with feelings of deep appreciaton. It has afforded him sincere satisfaction to labor for the best welfare of the city and to lend his hearty support and aid to every movement which has had for its object the best interests of its people as a whole. He will leave with only the best wishes for all and with the sincere hope that Alexandria may continue to grow and expand to double its present size and that success and prosperity may come to one and all of her good people accordingly.

BLESSED ARE THE PEACE-MAKERS

The Angelus, which suggests that every day at noon we turn our thoughts to high heaven and earnestly beseech the Father of us all to bring the present fearful war to a close with victory for the champions of right against might, appeals to every lover of peace. The spirit of the angelus is animating all, irrespective of ecclasiastical preferences.

At the outbreak of hostilities in Europe the congregation of the Jewish synagogue in our own city offered up prayers for speedy peace, in which they deplored the fact that descendants of Abraham were in each of the warring armies — English, French, German, Austrian, Italian and Jews—presenting the appalling picture of brethren battling against brethren. They implored the God of their fathers to intervene and not suffer the suicide of the civilized portion of the planet.

For some reason, the heavens are still silent, although the good people of the world are still sending up their appeals to the throne eternal.

Honest prayers are sure of fulfillment, though apparently long deferred, and there should be no relaxation in these importunities.

Abraham Lincoln in his inauguration address in 1861 referred feelingly to the disturbed conditions then existing in our own country. Among other things he said "the dark clouds which now hover us will break eventually, when the dove of peace will return to the land." The dove may be on its way now bearing the olive branch.

In every Catholic church, chapel and shrine throughout the world this morning masses were celebrated for one single intention, by an order of Pope Benedict, issued to the bishops of the world and transmitted by them to the clergy. The one intention which the Pope prescribes is "for peace and concord among Christian rulers of the world."

THE SARAJEVO MURDERS

Four years ago yesterday the Archduke Franz Ferdinand, heir to the Austro-Hungarian throne, was assassinated by Serbian fanatics. In revenge for this crime Austria-Hungary tried to make a vassal state of Serbia and thus gave to the German militarists an opportunity to bring about the world conflict which they had long been planning for the time when they could be sure of the dual monarchy's support as an active and willing ally.

This was the cause of the war. On the fourth anniversary of Archduke Ferdinand's murder the German militarists are gathering together in anxious conclave because the German government has been compelled to declare to the reichstag that peace cannot be won on the battlefield. It has required three years and eleven months of fighting to extort this confession from Germany. The vast dreams of Pan-German ambitions that made international outlaws of the Hohenzollern warriors cannot be realized by force of arms.

Germany's military machine, which was ready for instant brigandage on the assassination of Franz Ferdinand, is no longer able to keep up its bold front of assured victory. The machine has failed. Von Kuehlmann, the third foreign minister whom Germany has called to subservient office to the militarists in the last four years, has declined to conceal any longer from the German people the fatal defect of the machine which is so relentless in its futile sacrifice of German man power. The four years from Franz Ferdinand to Von Kuehlmann mark the shattering of the Hohenzollern ambition to rule the world by force of arms. There probably will be further painful efforts by Von Hinderburg to rehabilitate the reputation of the German army. They will be in vain.

Von Kuehlmann's words are ringing throughout Germany not to be forgotten.

MUST BEAR BURDENS OF LIFE

The world does not owe any man a living, but every man owes the world a life.

How many there are who will have to confess with Grotius, as the shadows deepen, "I have spent my life laboriously doing nothing"!

There is just so much cross in the world, and each man must bear his own. Every man who shirks doubles another man's cross. Let every man take his share of "hardness as a good soldier of Jesus Christ."

The Bible, which should be the rule of life for every son of Adam, shows us that the greatest individuals who have ever appeeared in this world were working men.

Moses, we know, kept sheep on the backside of the desert forty years before he received his commission at the burning bush, Elisha was plowing when called upon to succeed Elijah, Jesus Christ spent about thirty years in a carpenter's shop in Nazareth, and Paul wrought at his trade, that of tent-making, while preaching the gospel to the Gentiles.

The Gazette this week published the law proposed by the State Council of Defense, which makes it obligatory upon every man to work or show good cause why he should be exempt. At this critical juncture it behooves all to do something toward winning the war. There is work for all, and there should be no slackers.

REHABILITATION OF PALESTINE

Palestine will be the ideal republic, which will show the rest of the world how it should be governed. This was the statement made by Mrs. Joseph Fels, wife of the well-known single taxer, after the Federation of American Zionists in Pittsburgh, Pa., this week adopted a series of resolutions that will govern the future Jewish state. The plans for rehabilitation will be put in operation at once.

In this day of rapid transitions Bible students, those who believe in the literal restoration of the Hebrew race in the land of promise, read with interest the movements of the Zionists, who are anticipating what they believe to be a coming event most precious to the hearts of the orthodox. During nearly nineteen centuries the Jewish race, scattered in every clime, with no king or high priest, have maintained their nationality, and without a country, have firmly believed that in the process of time the people would be returned to the land from which they were driven by the Romans shortly after the advent of the present era. Many of the race are convinced that the God of Abraham, Isaac and Jacob will restore the theocracy instituted after their exodus from Egypt and conquest of the land of Canaan.

Many newspapers of this country publish on Saturday the international Sunday school lesson for the following Sunday. The selection for tomorrow is a review lesson, and will be the second Psalm, written about one thousand years before the appearance of the Wonderful Babe in a manger at Bethlehem: It is as follows:

Why do the nations rage, and the people imagine a vain thing? The kings of the earth set themselves, and the rulers take counsel together against the Lord, and against his Anointed, saying, Let us break their bands asunder, and cast away their cords from us. He that sitteth in the heavens shall laugh: the Lord shall have them in derision. Then shall he speak to them in his wrath, and vex them in his sore displeasure. Yet have I set my king upon the holy hill of Zion. I will declare the decree: the Lord hath said unto me, Thou art my Son; this day have I begotten thee. Ask of me, and I will give thee the nations for thine inheritance, and the uttermost parts of the earth for thy possession. Thou shalt break them with a rod of iron; thou shalt dash them in pieces like a potter's vessel. Be wise now therefore, O ye kings; be instructed, ye judges of the earth. Serve the Lord with fear, and rejoice with trembling. Kiss the Son, lest he be angry, and ye perish from the way, when his wrath is kindled but a little. Blessed are they that put their trust in him.

The pious Jew believes this forecast of coming events will be fulfilled literally, although about ninety per cent of Christians explain the psalms allegroically, claiming the words are not intended to be taken literally. A small minority of disciples, however, including numbers who have made the scriptures a life-time study can see no logical reason why the prophecy will not be fulfilled to the letter.

THE CAMP LEE PAPER

We have received a copy of "The Bayonet," published at Camp Lee. It is a fine publication from every standpoint. Its articles are well written, and from a printer's standpoint, it is up to date. It contains matter of interest to the boys and their dear ones at home.

While perusing "The Bayonet" our mind went back to 1861, the first year of our civil war, when a regiment of Federal soldiers from Pennsylvania seized The Gazette office and issued a print which they called "The Pennsylvanian." Half of the paper was in English and the other half in German. "The Pennsylvanian" was short-lived, as it ceased publication when the stock of blank paper seized in The Gazette office ran out. The paper was set up in our office, but printed on the press of the Virginia Sentinel.

"The Pennsylvanian" was a crude affair, and contained nothing of interest save to Pennsylvania Germans who came down here during the war.

"The Bayonet," on the contrary, abounds in miscellaneous matter, each article being readable. It also sends out a finely printed illustrated supplement containing pictures of scenes in Richmond and other nearby places.

The Prussian Puppets.

It is difficult to believe that Foreign Minister von Kuehlmann's recent address to the reichstag was made without official inspiratron and indorsement. In fact, we may be sure that no official servant of Prussianism makes a deliverance such as that of Von Kuehlmann without consultation with and the permission of his masters. The kaiser is an adroit puppet showman. And his puppets orate and gesticulate with a purpose. If the audience does not like the performance it is easy to pull them down with an air of indignation and substitute others. But we may be certain that the puppets always speak by the card, and that there is a design even in their apparently most inconsistent antics.

The comments of the British and French press indicate that they realize that it was the Prussian ventriloquist who was speaking through Von Kuehlmann, and that, however angry the showman may appear to be with him, he spoke his piece as it was written for him. A variety of motives may have dictated the performance—a desire to make the German people think that a genuine peace suggestion had been made and spurned, and thus reconciled them to desperate defense; a wish to test public temper in Germany and abroad on war aims and peace principles; a possibly remote hope that the germ of a war trade contained in the Russian suggestion might find a lodgment in Allied countries. It is difficult to follow the devious processes of the Prussian mind. They are as complex, as involved, as curious as one of those long and elaborate German sentences in which an English student finds himself lost as in a maze.

Von Kuehlmann has succeeded in one thing at least—in making everybod talk about peace—in putting "innocent" Germany once more in the attitude of offering the olive branch. He may be repudiated, but he leaves his germs to hatch or not, as may be. And all the same, the Imperial showman made him do his song and dance act.—Baltimore Sun.

Editor Gazette:

There is a widely spread rumor to the effect that the water supply of the city is being contaminated by surface drainage and sewerage—certainly cases of typhoid are being reported.

Naturally great apprehension has been caused and in consideration of this fact will not the water company make some statement as to the condition of the water, and the degree of safety with which it may be drunk?

Editor Gazette:

The contractors of this city running union shops were notified Thursday, June 27, that on and after July 1, 1918, union wages would be 75 cents per hour or $6 for a day of eight hours, making an increase of $1 per day. The contractors were only given four days' notice of the increase.

Now, I would like to know what kind of treatment the contractors are receiving at the hands of the union as they have work on hand which has not been completed which was figured at the old scale of wages?

VIRGINIA NEWS

A large number of persons narrowly escaped being killed and traffic delayed several hours as the result of a wreck yesterday in the Southern Railway yards at Danville. 30 cars loaded with peaches crashed into the rear of a troop train, lifting the cab of the freight train onto the roof of the officer's drawing room car partially telescoping it. The accident was caused by the brakes of the freight train failing to work.

Three trains carried to Camp Lee yesterday about 2,000 drafted men from Pennsylvania and West Virginia. Contingents from the city of Roanoke and the counties of Smythe and Wythe arrived late in the evening. Yesterday hundreds of the soldiers were engaged in clearing up the grounds of the cantonment.

In order that an overall factory may complete a big government contract, 20 young ladies of Lynchburg, unaccustomed to such work, have volunteered thier services in order to help win the war.

Six members of the general assembly of Virginia refused to accept the $50 voted themselves for attending the extended session of the legislature, and a seventh sent his check, or warrant, to the Red Cross Society. When the matter was being discussed many of the members declared that they would not accept, others said they would tender it to the Red Cross. Those who refused to accept the money, are: Senators W. A. Rinehart, Henry H. Downing, Fort Royal, and Lucien Keith, of Fauquier. Delegates V. R. Shackelford, of Orange; R. A. Russell, of Campbell, and Herbert J. Taylor, of Augusta. Major William A. Anderson, of Rockbridge, sent his warrant to the Red Cross.

Winchester coal dealers have been notified that their supplies of anthacite coal for next season will be limited to 40 per cent of the amount received last year, and the local fuel administration has directed that hard coal consumers can purchase only half the quanity they used a year ago in order to effect a more equitable distribution. Very little hard coal in addition to that already on hand will be received in Winchester.

In one of the most severe rain and wind storms which has passed over the lower end of the peninsula in several years three barges loaded with freight cars, of the New York and Pennsylvania Railway company, went ashore at Buckroe Beach during the early hours of Thursday morning. There are practically twenty-four cars in the train and the barges are lying high and dry just in front of the Lawson cottage. It was said last night that the barges are in no danger. Reports from all sections of Hampton, Phoebus and the county Thursday night had it that much damage had been done to trees and crops from the wind. The wind is said to have gained a velocity of fully seventy-five miles per hour along Hampton roads and the Chesapeake Bay, and it is believed that later reports from the shipping will show considerable damage has been done to the small craft.

SEES PEACE BID IN SPEECH.

British War Trade Minister Thinks Offer is Made to England.

London, June 28.—Discussing the Reichstag speech of the German foreign minister, Dr. von Kuehlmann, Lord Robert Cecil, minister of war trade, told foreign press representatives here yesterday that he regarded the speech as a peace bid directed specially to Great Britian. The terms of this bid Lord Cecil charcterized as of an exceedingly vague nature, conforming, he said, wholly with the pan-German policy.

Regarding the "freedom of the seas" mentioned in Kuehlmann's speech, Lord Cecil said:

"If the phrase means anything, it means the freedom of Germany to import raw materials."

Lord Cecil said he disbelieved Washington dispatches to the effect that apan had refused to intervene in Russia. "The subject," said he, "is still a matter of negotitation between tre allies."

TIME IS THE TEST.

The Testimony of Alexandria People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Alexandria people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from Kidney ills is looking for.

Mrs. G. W. Davis, 107 Prince St., Alexandria, says: "Doctors treated me for along while and pronounced my case of kidney trouble a severe one. Often I felt so listless and nervous, I almost gave up hope. Doan's Kidney Pills brought me relief after everything failed. Doan's strengthened my kidneys and removed the trouble."

THREE YEARS LATER Mrs. Davis added: "I still take Doan's Kidney Pills occasionally when my kidneys don't act as they should. I always get quick relief."

Price 60c., at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Davis had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side...

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sidache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists. NO-139

Your Winter's Coal Supply

On account of rulings of the U. S. Fuel Administration, it seems doubtful if Virginia will receive sufficient anthracite coal to supply the demands. If present rulings are maintained, this shortage will be very great in Alexandria and we earnestly advise our customers to put in a reasonable amount of bituminous coal as a safeguard against a coal shortage next winter.

We are now securing some very fine bituminous coal which we believe will work in all characters of coal burners but the Latrobe stoves.

HUNGARIAN UNREST

Sixty Thousand on Strike in Budapest, With Much Grumbling.

Washington, June 29.—Hungarian newspapers which have been smuggled into neutral countries give the only authoritative facts in regard to the unrest in Austria-Hungary, received in official advices here. From a report received yesterday it is established that at the opening of this week 60,000 workmen were on strike in Budapest and the protest was spreading to provincial centers.

In a speech delivered before the Hungarian parliament, Deputy Lahn, of the Karolyi party, charged that the situation in Hungary was growing very serious, and that, with 60,000 workmen on strike and the voluntary walkout spreading to the provincial towns, there was need for the government at once to reach decisions on the questions of food and wages. The disturbances had their inception in the protests of the workers that, in working in the government munition and supply plants, they were made to toil for a wage far less than that paid by the independent companies.

In addition to other matters which have tended to strain relations between Germany and Austria-Hungary, it is alleged by the workmen that Germany is doing all in her power to hinder the sale of Austro-Hungarian products in Holland and Scandinavia. It is said that the Austrians and Hungarians are forced to sell to Germans at a low price, and that the goods are later sent to the neutral countries and sold at a high profit by the German brokers.

Paris, June 29.—There have been rebellious outbreaks among the garrizons of the cities of Gyor and Pecs, Hungary, as a result of which 2,000 of the military involved in the mutiny have been condemned to death, according to reports received by the Matin yesterday.

Both Austria and Hungary are affected by the revolutionary movement, which is said to be in progress on a large scale in Austria, the newspaper advices declare. The spirit of revolt is said to be strongly pervasive in the army.

Violent demonstrations are reported to have occurred in numerous cities.

BOMB IN SLAIN MAN'S BED.

Boarders Burn Belongings and Terrific Explosion Shakes Town.

Pennsgrove, N. J. June 29.—The mystertery surrounding the death of Comedo Domenico, who was killed, Saturday night, while lying in bed, was intensified by curious occurrence Wednesday evening. While Fortunato Peppers and his wife, who run the house, and Dominick Arigri, the dead man's room-mate are still in the Salem jail, awaiting the Coroner's inquest, several of the boarders took all the dead man's blood-soaked clothing, his shoes, the mattress on which he lay. into the street and set fire to. Immediately a terrific explosion followed which shook buildings and start led people for squares, many fearing a frightful accident had occured at the powder works.

Investigation by the police disclosed the fact that a bomb had been secret in the man's bed and had probably been there for some time. Had it gone off in the house it would have wrecked the building and probably killed all the occupants. The articles burned by the boarders were all important as evidence in the case should anyone be held for the man's death The police are making a careful investigation, and it is probable further arrests will be made with a view to cleaning up the mystery.

NEWS OF THE DAY.

The Senate deferred to the War Department's request yesterday and killed the Fall amendment to the Army Bill, extending the draft age limits from 21 and 31 to 20 and 40. The vote was 49 to 25 against the amendment of the Secretary of War, Chief of Staff and Provost Marshal that a large army program would be submitteed in September and the inference was that at that time the draft extension would be recommended.

Rumors are in circulation, says the Echo Belge of Amsterdam, that an epidemic of typhoid is raging among the German soldiers in Northern France. Several units are reported to have had virtually their entire personnel affected with this disease. This condition, together with the losses sustained by the enemy in the last offensive is said, according to this account, to be responsible for the delay in resuming the offensive.

Eleven persons were killed and fourteen others injured through the explosion of bombs dropped by German airmen in Thursday night's raid over the Paris district. The damage done by the raiders is reported as considerable. M. Feyssiere, chief of the Paris fire department, died of suffocation while directing the rescue of victims of Wednesday night's raid.

AUSTRIA BURDENS HUNS

Kaiser, Facing Greatest Crisis of War, May Have to Abandon West Drive.

London, June 29.—The kaiser today faces his greatest crisis, the biggest problem of the war, and he alone can solve it.

Hindenburg can't help him. Mackensen can't help him. Ludendorff can't help him.

This is the problem:

Shall the west front offensive be abandoned to save the dream of world empire—"Mittel Europa?"

This problem must be solved, because:

First—Austrian military collapse seems imminent on the Italian front.

Second—An ever-increasing American army is facing the Huns in France.

Third—Retreat in Italy may be the signal for disruption of Austria-Hungary.

The Austrian drive in Italy has been without question one of the war's most colossal failures. It holds more serious consequences for Austria than did the battle of the Marne for Germany.

Not only that, but it puts Germany in a most serious position.

The possibility of defeat never enters into the German military plans.

But the Italian armies, aided by the French and British, now have the upper hand in the great battle of the Piave.

Now the floods have caught the Teutons in a trap between the Piave and the hard-fighting Italian army. It is only a matter of time when the whole Austrian army will be forced to retreat.

There is only one way this withdrawal can be avoided. That is by the transfer of hundreds of thousands of German soldiers from the western front to Italy.

If Germany sends an army to stave off Austrian disaster, it will mean that the great summer offensive in Champagne and Picardy will have to be abandoned.

And with the American army at the front growing bigger every day, General Foch might decide to put into operation this summer or autumn the great allied drive which is planned for next year.

The critical question is complicated by the urgent necessity for keeping Austria in the war. Austria lost means Mittel Europa lost; the kaiser's dream for world empire evaporated.

And the food riots in Austria must be stopped; the hungry Austrians must be fed or they will quit the war regardless of the plans of Kaiser Wilhelm and Kaiser Carl.

Alexander Kerensky, though in precarious health—he has only one kidney and one lung left—stands once more "to the hilt" in the battle for Russia's freedom. He stands ready indeed, again to head the Russian revolutionaries and re-mobilize them against the Central Powers, provided the allies and America back him to the fullest of their moral and material resources.

Twenty-four members of the crew of the troop ship Dwinsk, under charter to the American government and torpedoed without warning by a German submarine June 18, reached Shelburne, N. S., yesterday abroad a Gloucester fishing schooner. The men, exhausted by exposure and lack of food, were picked up on the morning of June 26, after being adrift eight days, and with only a day's provisions in stock.

The Amsterdam correspondent of the Express has obtained an interview with a neutral journalist who was the guest of the German staff during the recent fighting around Soissons, where the scenes were described as more terrible than anything else witnessed in the war. "The German losses were indescribable," the neutral journalist said. "Whole regiments were wiped out in no time. I saw masses of corpses in bundles with wire, to be burned." The Germans could not spare enough men to dig graves for burial purposes.

Dr. von Kuehlmann offered his resignation as German Foreign Secretary on Wednesday, says a Zurich dispatch to the Paris Journal. The dispatch adds that it is believed the Emperor will accept his resignation.

KEPT HER AWAKE.

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night . . . I took different medicines, but nothing did me any good or relieved me until I took Cardui . . .

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again . . . I decided I would try Cardui . . . By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133

Wiliam H. Beach, 417 South Lee street tell it. "My back pained me so badly I could hardly get about. The kidney secretions passed too frequently and I had to get up often during the night. I felt so sore and stiff in the morning I could hardly get out of bed. I was tired and languid and had no ambition. I finally got a box of Doan's Kidney Pills at W. F. Creighton & Son's Drug Store and the first few doses gave me great relief. I used about four boxes of Doan's and they put my kidneys in good condition. My back never aches now and I feel fine in every way."

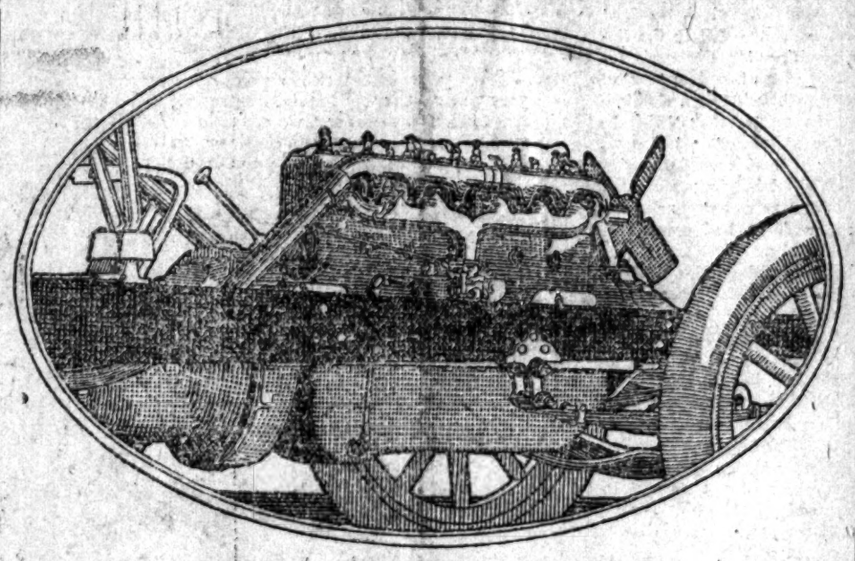
CHANDLER SIX
Famous For Its Marvelous Motor



Unusual Economy Without Sacrifice

The Chandler Six has always been famous for its economy of operation—economy without the sacrifice of reserve power, without the sacrifice of roadability, without the sacrifice of beauty of design.

Thousands of Chandler owners all over America tell of gasoline mileage of fifteen to seventeen miles per gallon.

Tire mileage of seven thousand to nine thousand miles per set of tires is commonplace among Chandler owners.

Chandler owners and Chandler dealers say that the service upkeep of the Chandler car is much less than that of any other good cars which they have owned or sold.

The owner of a Chandler Six possesses a really great automobile—great not merely from the standpoint of economy of operation and maintenance, but, even more important, from the standpoint of mechanical excellence and daily performance.

The Chandler motor, designed and built in our own factory, distinguishes the Chandler chassis, marked throughout by its simplicity and sturdiness. The life, pick-up, get-away and endurance of this motor will astonish you quite as much as it pleases you.

Bodies of most attractive design and of unusual comfort are mounted on the Chandler chassis.
